

**Public Works
Storm Water Utility**

- (1) Program Title:** **Support Personnel for River Maintenance**
- (2) Division/Section:** **River Maintenance**
- (3) Program Element:** **(a) TPDES**
 1. Storm Water Controls & Collection System Operations
- (4) Statement of Purpose:**

This activity is associated with a TPDES permit requirement. The Permit's Storm Water Management Program Requirement (1) states that the municipal separate storm sewer system and any storm water structural controls shall be operated in a manner to reduce the discharge of pollutants to the maximum extent practicable. This personnel and equipment is necessary to ensure the maximum productivity of maintenance activities.

In addition, this activity aids in the conveyance of storm water by aiding in the maintenance activities associated with maintaining the design characteristics of the channels and the conveyance capacity of the channel.
- (5) Description of Actions (Statement of Services):**

The activity provides pre-maintenance of all heavy equipment and field re-fueling activities of River Maintenance equipment to include such items as pumps etc. The haul truck is tasked with moving all "track" and oversized equipment to jobsites that are prohibited from operating on City streets.
